## PROJECTS

**Petco.com**
Petco · https://www.petco.com/shop/en/petcostore · April 2023 – Present
· Address high-priority issues and provide regular updates to ensure a comprehensive understanding of their current statuses.
· Enhance and sustain the usability and functionality of the whole site, including home, account, product description, product listing, brand, cart, checkout and order confirmation pages.
· Analyze user requirements to effectively prioritize and estimate key features, ensuring resources are allocated efficiently.
· Mentor junior developers through hands-on coding examples and guided code reviews.

**The News Movement**
Wizeline · https://www.thenewsmovement.com/ · July 2022 – April 2023
· Developed the main website, provided support, and implemented unit tests to ensure its functionality.
· Collaborated with the client's CTO, editorial, and design teams to gather feedback and new requirements.
· Provided support and maintenance to both the CMS and cloud infrastructure.
· Led daily status meetings.

**Asset Monitoring Application**
GE Aviation · October 2020 – December 2020
· Developed a React application to monitor assets using drones and real-time alerts to decrease asset loss due to theft or damage.

## EDUCATION

**Bachelor in Computer Science and Engineering**
Instituto Tecnológico de Querétaro · Querétaro, México · 2019

## CERTIFICATIONS

**Microsoft Certified: Azure Fundamentals**
Microsoft · 2022
· Demonstrated foundational level knowledge of cloud services and how those services are provided with Microsoft Azure.
